

# STRATEGIC AUSTRALIAN EQUITY FUND

AS AT 31 JULY 2022

## INVESTMENT OBJECTIVE

The aim of the strategy is to generate a cost-effective and tax-efficient exposure to the Australian equity market, while diversifying broadly and targeting the parts of the market that history suggests offer higher expected returns. The fund is designed to be used as a core component or sole investment of an Australian equity portfolio.

## INVESTMENT PHILOSOPHY

The fund puts a greater weight on low relative priced stocks, small company stocks and companies with higher profitability. These factors have been shown by rigorous academic research to drive long-term returns. This approach builds a strong foundation that allows investors to benefit from the myriad of opportunities generated by the Australian market, but in a low-cost, efficient and highly diversified way.
