

IOOF Income Trust – Class A

Changes in buy-sell spreads from 1 April 2020

The uncertainty driven by the COVID-19 pandemic has resulted in heightened volatility in investment markets. Significant spikes in trading costs have been observed, particularly from underlying fund managers in fixed income markets.

The latest targeted review of transaction costs has resulted in increases to the spreads for some trusts due to the rising transaction costs described above. The revised buy-sell spreads¹ listed below apply to entry/exit unit prices from 1 April 2020.

We will continue to regularly review the buy-sell spreads to ensure the equitable treatment of costs across all investors, considering both trading and remaining (non-trading) investors in the trusts. Any further updates will be communicated on the IOOF website.

It is important to note that the spreads are not a fee paid to IOOF.
